RISE ABOVE HEAVEN ON EARTH

KHAO YAI'S MOST BREATHTAKING LAKESIDE RESORT

Inspired by Kirimaya

Stop... Close your eyes and breathe - slowly, deeply. You are standing on the serene shores of a gently rippling lake, surrounded by jungle-clad mountains that are shrouded by the cool morning mist. The air is perfectly pure, the only sounds are the distant calls of birds and monkeys from the forest. Your heart rate slows; you smile. You have arrived. You are at **aṭta**.

Just as the tranquil waters of our lake reflect the colors of the mountains and sky, the name **aṭta**, meaning 'self' in Sanskrit, reflects the sublime nature of living in this stunning resort.

Nestled in the foothills of Khao Yai National Park, Thailand's UNESCO World Heritage-listed ecological arcadia, **aṭṭa** is entirely at peace with its surroundings. Our discreet collection of architecturally-sensitive buildings, rising gently from the shores of the lake, feels truly organic. And yet, the design and interiors of **aṭṭa**'s suites and penthouses exude contemporary style and luxury.

This fusion of environmental integrity and modern comfort has allowed **aṭṭa** to create a new way of living, where your sense of self becomes organically intertwined with nature.

Transport yourself far away from the claustrophobic clutter of the city and into a new era of open-plan luxury living. Lapped by the gently rippling waters of our serene lake and surrounded by the lush forested hills of Khao Yai National Park, **aṭṭa**'s spacious one and two-bedroom suites, or spectacular rooftop penthouses, provide an escape from reality. All accommodations are finished to the very best design specifications, allowing guests to indulge all of their material and spiritual needs.
